One of the newest Advanced Myofascial Techniques workshop presents a simple "grand unified theory" of intra-segmental pelvic dynamics that will help you address back and pelvic pain, gait issues, scoliosis, SI joint function, and much more. Learn assessment and manipulation skills that will increase your effectiveness with these common issues and many more.

Preparation: completion of our "Pelvis, Hip, & Sacrum" or "Spine, Ribs, & Low Back" course (via seminar or DVD) is highly recommended (though not required) preparation for this course. Order the DVDs at a discount from Advanced-Trainings.com during your registration.
